Account Opening and Usage

Minimum Deposit to Open	\$25
Monthly Service Charge	\$25

No Monthly Service Charge When You Meet Either of the Following:

1. Have an Average Daily Balance of \$15,000;
The **average daily balance** is calculated by adding the principal in the account for each day of the period and dividing that figure by the number of days in the period.
2. Have a Deposit Relationship Balance of \$50,000;
The **deposit relationship balance** is calculated by adding the current balances in all Northwest Bank deposit accounts as of the close of your statement cycle for this checking account. Accounts used to calculate your personal deposit relationship balance include all Northwest checking, savings, money market, certificate of deposit, and individual retirement accounts owned by at least one of the owners listed on this checking account. Only personal accounts that are either solely owned, jointly owned, or account trustees, will qualify for relationship balances. Holds placed on deposits according to our Funds Availability Policy Disclosure do not reduce your current balance for deposit relationship balance calculation. Any account used in the calculation of your deposit relationship balance may be subject to its own service charge and must still meet the requirements disclosed for waiving the service charge specific to that account as applicable.

Interest Rate Information

This account is an interest bearing account.

Current interest rates available at <https://www.northwest.bank/rates>

The interest rate and annual percentage yield on this account may change. At our discretion, we may change the interest rate on the account at any time. Interest begins to accrue on the business day you deposit cash and/or non-cash items (for example, checks). Interest will be compounded and credited to the account monthly. If the account is closed before interest is credited, you will not receive the accrued interest.

Balance Information

We use the daily balance method to calculate interest on this account. This method applies a daily periodic rate to the principal in the account each day. We will use an interest accrual basis of 365 (or 366 in a leap year) for each day in the year. You must maintain a minimum average daily balance of \$1,500 to obtain the disclosed annual percentage yield. The average daily balance is calculated by adding the principal in the account for each day of the period and dividing that figure by the number of days in the period.

Limitations

Withdrawal Limitations are as follows: This is a Negotiable Order of Withdrawal (NOW) Account.
