

Money Desktop

Overview

Money Desktop is Northwest's personal financial management tool that allows you to budget and manage your finances by aggregating all of your accounts across multiple financial institutions. You can see balances and transactions in one place, on any device. You can view your spending and saving trends and have access to budgeting, debt management, net worth, and other personal financial data.

Aggregate your accounts

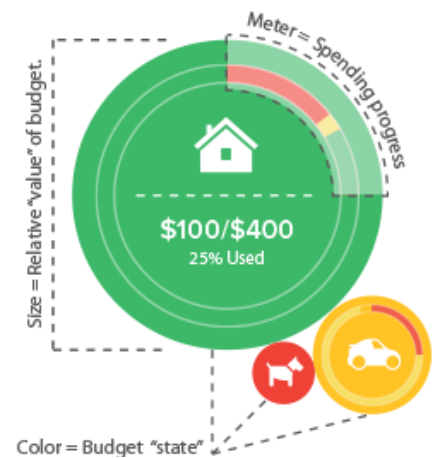

Pull together deposit, loan and investment accounts you have at Northwest and other financial institutions for a complete financial picture.

Budget

Rather than look at your budget in a traditional way, Money Desktop delivers it using bubbles. At a glance, you'll be able to customize budgets and determine whether or not you're on track when it comes to spending and saving.

*Alternative List View is available for those who prefer a more traditional visual of their budget.

Northwest Bank is Member FDIC.

Money Desktop

Overview—Contd.

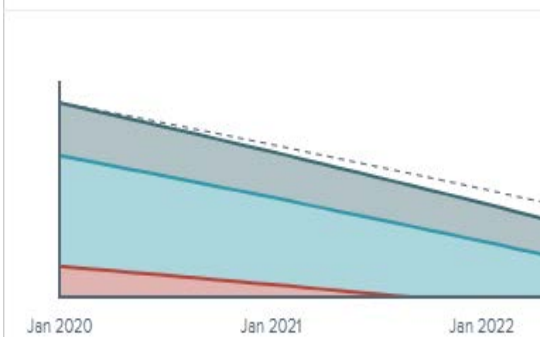

Track expenses

Money Desktop provides powerful insights about where, when and how you spend. Best of all, data from your Northwest accounts is automatically pulled into the system and categorized, so you can see where your money is going without any hassle.

Fastest Payoff First ▾ Total Monthly Paydown: \$902.00

Manage debt

You can also customize a financial plan and stay on track with a financial GPS that keeps you on the path to financial freedom and well-being. If you're in over your head, Money Desktop will give you step-by-step instructions about how to get out of debt - and stay out for good!

Understand your net worth

Combining your Northwest accounts with your loan, credit card, and investment accounts from other financial institutions gives you an accurate picture of your assets versus liabilities, and helps you determine whether or not you're moving in the right direction. Even the smallest changes in the way you manage your money are easy to see and place in context.
